

Homebuyer Tax Credit

What is the Homebuyer Tax Credit?

The Homebuyer Tax Credit makes homeownership more affordable for first-time homebuyers. To qualify, eligible homebuyers must receive a Mortgage Credit Certificate (MCC) from New Hampshire Housing. The Homebuyer Tax Credit can decrease the income taxes you owe and boost your take-home (net) pay, which helps you qualify for a mortgage and make your mortgage payments. The Homebuyer Tax Credit is not a one-time credit—it is an annual credit for the life of the original mortgage, as long as you live in the home.

How do I qualify for the Homebuyer Tax Credit?

Eligible homebuyers can receive the Homebuyer Tax Credit by receiving an MCC, which is issued by New Hampshire Housing. To qualify for an MCC you must:

- Be a first-time homebuyer (have not owned a home in three years) or are purchasing a home in a “targeted area.”
- Be qualified for a new mortgage. MCCs cannot be used with existing loans.
- Intend to occupy the home as your principal residence.
- Be purchasing a house that is a single-family residence and that meets certain purchase price limits.
- Meet certain income limits.
- You complete the online MCC Education course at <http://www.nhhomeownership.org>.

What are the benefits?

Having a Homebuyer Tax Credit can save you up to \$2,000 a year over the life of your loan. With these savings you can:

- Reduce your tax withholdings and increase your take-home (net) pay.
- Potentially qualify for a higher priced home during the homebuying process.
- Use your increased take-home (net) pay to offset your monthly mortgage payments, making your home more affordable.

How does the Homebuyer Tax Credit work?

The Homebuyer Tax Credit is a direct dollar-for-dollar reduction in your federal taxes worth 10% to 50% of the interest you pay on your mortgage. You can estimate your potential savings by using the following formula:

Mortgage amount x loan interest rate = annual mortgage interest paid

Annual mortgage interest paid x Homebuyer Tax Credit rate = annual tax credit

Example: \$200,000 mortgage x 3.5% interest rate = \$7,000 paid in annual interest

\$7,000 x 35% Homebuyer Tax Credit rate = \$2,450

\$2,000 maximum annual tax credit

In this example, you may boost your take-home (net) pay by \$167 a month—money that you can use to pay your mortgage!

Note: Your annual tax credit savings cannot exceed \$2,000. You also must have a tax liability to use the credit.

For more details about how the Homebuyer Tax Credit works, visit <http://www.nhhomeownership.org> and consult with your tax professional.

How can I apply for the Homebuyer Tax Credit?

To apply for a Homebuyer Tax Credit, contact an Approved New Hampshire Housing Lender. There may be a nonrefundable fee to apply for the Homebuyer Tax Credit. If you are combining your Homebuyer Tax Credit with a New Hampshire Housing mortgage product, the fee may be reduced. For more information about this discount and to see a list of Approved New Hampshire Housing Lenders, visit <http://www.nhhomeownership.org>.

Homebuyer Tax Credit Program Disclaimer

In connection with the Homebuyer Tax Credit Program, New Hampshire Housing makes no promise, no representation and no warranty to any party, including any homebuyer or any lender.

Homebuyers should first become fully informed about the Program, and then, with their own tax advisor, the homebuyer should decide if an MCC provides any benefit.

Homebuyer Tax Credit Borrower Qualification Worksheet

NEW HAMPSHIRE
HOUSING

EFFECTIVE DATE: 06/01/2023

**Want to find out if you may qualify for the Homebuyer Tax Credit?
If you can answer yes to the following items, you may qualify!**

	Yes	No
Eligible Homebuyer		
Are you a first-time homebuyer or purchasing in a Targeted Area?	_____	_____
Will the home be your Principal Residence?	_____	_____
Is your gross annual income at or below the MCC Income Limits?	_____	_____
Eligible Property		
Is the home you wish to purchase a single-unit property?	_____	_____
Is the home's purchase price at or below the MCC Purchase Price Limits?	_____	_____
Eligible Mortgage		
Is the mortgage loan that you qualify for a fixed-rate or eligible adjustable rate mortgage that is fully amortizing?	_____	_____
Your Ability To Use The MCC		
Do you generally expect to have federal income tax liability?	_____	_____

Estimate Your Potential Homebuyer Tax Credit

Amount of your first mortgage: \$ _____

Interest rate: X _____ %

First year interest paid (estimated): = \$ _____

MCC tax Rate: X _____ %

Reduced federal tax liability*: = \$ _____

Calendar year/Month: divided by 12

Potential Monthly Savings: = \$ _____

MCC tax Rate based on Mortgage Amount	
< \$140,000	= 50%
\$140,000 to \$160,000	= 45%
\$160,000 to \$200,000	= 35%
>\$200,000	= 25%

To receive immediate benefit from your MCC, Eligible Homebuyers should file a w-4 Federal Tax Withholding form with your employer. Reducing your Federal Tax Withholdings may increase your monthly take home (net) pay.

***The amount of the tax credit benefit may not exceed \$2,000 in any given tax year.**
